

Hypercom T7PLUS

The Hypercom T7Plus is one of the most popular credit card terminals ever made. The T7 Plus is both compact and highly advanced.

Overview

The Hypercom T7 Plus is designed for merchants requiring a small countertop POS terminal. The terminal delivers a set of powerful features in an attractive, compact design. The Hypercom T7Plus is capable of accepting all magnetic stripe cards and provides fast online transaction authorizations.

The Hypercom T7Plus terminal features a completely new SureLoad printer, which supports larger paper rolls and allows the rolls to simply be dropped in place without feeding through slots and rollers. The Hypercom T7 Plus uses thermal paper and prints silent receipts with graphic logos at a significantly faster speed.

Support for new smart cards and EMV-compliant software are both available on the Hypercom T7 Plus, along with improved peripheral connectivity. It is fully compatible with previous T7 software and allows for attachment of an external PIN Pad where required.

HIGHLIGHTS

- » Completely eliminates paper jams with revolutionary SureLoad printer
- » Prints receipts in half the time of previous generation printers
- » Supports longer paper rolls for fewer paper changes
- » T7 Plus offers high reliability and communications capabilities, easy operation and advanced remote software management. It is a safe choice for merchants wanting a new credit/debit card POS terminal.
