

Verifone VX610

The Verifone VX610 is the latest in wireless credit card terminals from VeriFone. Its powerful processor and flexible design makes the VeriFone VX 610 one of the best wireless credit card terminals on the market. The VeriFone VX 610 wireless credit card terminal delivers blazing performance, high-end functionality, and exceptional ease of use. The VeriFone VX610 swiftly handles even the most complex mag-stripe or smart card transactions, using a choice of the latest wireless technologies.

HIGHLIGHTS

- » Integrated thermal printer produces receipts and reports at up to 13 lines per second.
- » Unique “clam shell” design has drop-in paper-loading. The hinged paper cover can’t get lost.
- » Compact footprint saves counter space.
- » Easy-to-use ATM-style interface, with angled rubber keys and screen-addressable function keys, virtually eliminates clerk training and minimizes input errors.
- » Large (8x21), durable, liquid-crystal display is backlit, for improved readability under any lighting conditions.
- » Triple-track card reader improves read rates and handles all magnetic-stripe cards, including driver’s licenses.
